

Welcome to our Experiment!!

- You will be presented with Raven's Progressive Matrices (RPM), a type of non-verbal reasoning test. Each problem consists of grid patterns, where one piece is missing. Your task is to identify the correct missing piece from the six options provided below the grid.
- Click on the correct option using the mouse to move on to the next question. You will only move to the next question once you click the answer for the current question. You cannot go back to a question once you move to the next question
- You will solve a total of 12 problems at your own pace.
- If you have any questions, please ask the experimenter before starting. Otherwise, click anywhere on the screen when you're ready.

Good luck!
